Shared Notes is economical

For just a small fraction of the cost of a static website, you get a dynamic web page that you can update yourself, 24 hours a day, *with no need for technical knowledge.*

In addition, you get interactivity. Soon your students will be rescheduling their own lessons themselves as needed, and your cantors will be signing themselves up to sing at masses!

For about the cost of a magazine subscription, you can have your own page at Shared Notes.

And you can try Shared Notes, for 90 days, for free.

The first 90 days are free!

All the basic features (calendar, pegboard, picture, contact info, description, and résumé) are yours to try free for 90 days. It won't cost you a penny. And you don't have to enter a credit card to get started.

After 90 days, just go to your easy-to-use Subscription Control Panel and extend your subscription using your credit card - and continue enjoying the powerful features available to you as a member of the Shared Notes community!

Or, if you choose not to continue as a full member, after 90 days you still won't owe a penny - but a reduced version of your page will remain. You can still continue to update your contact info, description, and picture for as long as you like.
